

Ludiflex

YouTuber • Tech Educator • Frontend Developer

hello@ludiflex.com • ludiflex.com • youtube.com/@ludiflex

PROFESSIONAL SUMMARY

Passionate content creator and educator specializing in frontend development, UI/UX design, and modern web technologies. Building a community of learners through high-quality tutorials, real-world projects, and accessible teaching methods. Dedicated to transforming complex technical concepts into clear, actionable learning experiences that empower beginners to become confident developers.

EXPERIENCE

Founder & Lead Content Creator Ludiflex (YouTube Channel) 2019 - Present

- ▶ Create and publish weekly educational content on HTML, CSS, JavaScript, and modern web development workflows
- ▶ Developed comprehensive learning series guiding beginners from fundamentals to production-ready projects
- ▶ Built and maintain an engaged global community of developers across multiple platforms
- ▶ Manage full production pipeline: concept development, scripting, recording, editing, and post-production
- ▶ Collaborate with tech brands and tool creators for product demos, sponsorships, and educational partnerships

Freelance UI/UX Designer & Frontend Developer 2017 - 2019 Independent Practice

HTML5, CSS3, JavaScript, Responsive Design, Web Accessibility

Design

UI/UX, Visual Design, Prototyping, Design Systems, Figma

Content Creation

Video Production, Scripting, Editing, Storytelling, Teaching

Strategy

Brand Development, Community Growth, Content Planning

TOOLS & TECH

- Designed and developed responsive web interfaces for small businesses and startups in East Africa
- Translated design prototypes from Figma into pixel-perfect, accessible HTML/CSS implementations
- Created reusable component libraries and comprehensive style guides for client handoff
- Consulted on UX improvements and conducted user testing sessions to optimize conversion flows

FEATURED PROJECTS

Windows XP Interface Recreation

Pixel-perfect HTML/CSS recreation of Windows XP UI with interactive components, themed widgets, and nostalgic design elements

Frontend Beginner Roadmap Series

12-week comprehensive course combining HTML/CSS fundamentals, JavaScript basics, and portfolio-ready project builds

Creator Toolkit & Templates

Open-source resources including thumbnail templates, script outlines, and teaching slide decks for new tech educators

EDUCATION & LEARNING

Self-Directed Web Development Study Ongoing

- Advanced CSS architecture, modern layout systems (Grid, Flexbox), and animation techniques
- Design systems, typography principles, and product-focused UI decision making
- Content strategy, video production, and community building for technical audiences
